<b>specto = I see</b>	

## I Spy ....

1. Gather at least 2 players
2. Have one player start (**Player 1**). **Player 1** is to look for something at the picture Lūdus. This can be any object in the picture and/or from the vocabulary list. Begin the game with saying in Latin SPECTO ("I see \_\_\_\_\_") and name the object in Latin. For example SPECTO CISTA ("I see a box").
3. Have the other player(s) look at the picture and point at the object. To make it more competitive, have all the players start the game standing up. The last player to find the object sits down. The last player standing up is the winner
4. The players take turns in starting the game as **Player 1**. Even if the player is sitting down, he can take the role of Player 1 when his turn comes.
